If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Walter J. Malinowski (Reg. No. 43,423) on March 12, 2010. This amendment was authorized by Mr. Malinowski based on In re Bilski.

The application has been amended as follows:

1. (CURRENTLY AMENDED) A method comprising:
 - specifying, by a processor, nodes present within a communication zone of a mobile node;
 - counting a number of overlaps between the communication zone of the mobile node and communication zones for each of the specified nodes; and
 - selecting, as a candidate node for next communication with the mobile node, the specified node for which a largest number of overlaps has been counted, where the selection of the candidate node occurs without using a received signal strength indicator.
2. (CURRENTLY AMENDED) A method comprising:

specifying, by a processor, neighbor nodes present within a communication zone of a mobile node;

specifying neighbor nodes for each specified neighbor node of the mobile node that are present within a communication zone of a corresponding one of the specified neighbor nodes of the mobile node;

counting a number of overlaps between communication zones that are within the communication zone of the corresponding one of the specified neighbor nodes of the mobile node for each of the specified nodes; and

selecting, as a candidate node for next communication with the mobile node, the specified neighbor node of the mobile node having a largest number of overlaps has been counted, where the selection of the candidate node occurs without using a received signal strength indicator.

Reasons for Allowance

Claims 1-10, 13-16, and 18 are allowed.

The following is an examiner's statement of reasons for allowance:

Applicant's invention is drawn to a method and an apparatus in order to select a candidate node for communication with a mobile node. Specifically, applicant's invention includes specifying, by a processor, nodes present within a communication zone of a mobile node, counting a number of overlaps between the communication zone of the mobile node and communication zones for each of the specified nodes, and selecting, as a candidate node for next communication with the mobile node, the specified node for which a largest number of overlaps has been counted, where the selection of the candidate node occurs without using a received signal strength indicator.

Applicant's independent claims 1, 2, and 15 each recite, inter alia, counting a number of overlaps between the communication zone of the mobile node and communication zones for each of the specified nodes, and selecting, as a candidate node for next communication with the mobile node, the specified node for which a largest number of overlaps has been counted, where the selection of the candidate node occurs without using a received signal strength indicator. Chheda is concerned with the optimization of neighbor sets during soft hand-off of mobile units (title, abstract). However, Chheda and a thorough search do not disclose the counting of overlaps and selection of a candidate node based on the largest number of overlaps that are counted. Therefore, applicant's claims 1, 2, and 15 comprise a particular combination of elements, which is neither taught nor suggest by the prior art.

Accordingly, applicant's invention is allowed for these reasons and applicant's amendments and arguments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
